## **PRODUCT INFORMATION SHEET**

# **Asu-Flex™**

### **General Information**

Asu-Flex is a biodegradable oil emulsion carrier specifically formulated to be used in conjunction with all approved 400g/l asulam herbicides.

When combined to the correct formulations, an excellent CDA translocated carbonate herbicide is produced which is effective for the control of bracken and docks. (See pesticide label for further details.)

### **Areas of Use**

Asu-Flex, when mixed with approved 400g/l asulam herbicide as per manufacturer's instructions, may be used to control bracken and docks in a wide variety of situations.

### **When to Apply**

It is essential that the dock plants to be treated should be actively growing and in full leaf. Do not treat docks in the winter months (October - March) although best results will be achieved during the growing season. Apply to bracken when fronds fully extended, usually in July and August.

### **Rates of Use**

In all situations apply, when mixed at 10lts/ha through the Greenaway range of CDA applicators.

### **Additional Information**

When mixed and applied in accordance with the manufacturers instructions, Asu-Flex will provide the user with an economic method of controlling docks and bracken through the Greenaway System range of CDA equipment.

Only MAFF approved products may be used in conjunction with this product.

ADJ. No. 0677

**NOTES:-** ASU-FLEX IS NOT A PESTICIDE  
ALWAYS READ THE LABEL  
USE PESTICIDES SAFELY
