## **PRODUCT INFORMATION SHEET**

# **Broad-Flex™**

### **General Information**

Broad-Flex is an oil emulsion carrier specifically formulated to be used in conjunction with Greenguard or Broadsword. When combined to the correct formulations, with Greenguard or Broadsword, an excellent CDA selective herbicide is produced which is effective for the control of a wide range of problem woody vegetation including Birch, Bramble, Broom, Thistles, Rhododendrons and Japanese Knot Weed etc. (See labels for further details.)

### **Areas of Use**

Broad-Flex, when mixed with Greenguard or Broadsword as per manufacturer's instructions, may be used to remove undesirable woody vegetation in many situations, i.e. Forestry, Amenity and Industrial whilst leaving grasses intact.

### **When to Apply**

Broad-Flex combined with Greenguard or Broadsword can be applied at any time of the year as a foliage spray for brush and scrub clearance on woody and perennial weeds when actively growing or to shoot spray in autumn and winter.

### **Additional Information**

When mixed and applied in accordance with the manufacturer's instructions, Broad-Flex when combined with Greenguard or Broadsword will provide the user with a very effective woody species control while at the same time allowing grasses to survive on the treated area. The combined product may be applied at any time of the year acting both on foliage and stems. It may also be used to control coppice.

This formulation complies with the current MAPP code of practice for reduced volume spraying.

ADJ No. 0680

**NOTES: -** BROAD-FLEX IS NOT A PESTICIDE  
ALWAYS READ THE LABEL  
USE PESTICIDES SAFELY
