### **PRODUCT INFORMATION SHEET**

# **Eco-Flex™**

#### **General Information**

Eco-Flex is an approved biodegradable vegetable oil emulsion adjuvant specifically formulated to be used in conjunction with non-hazardous Greenaway Gly-490 Glyphosate, producing an excellent non-residual CDA total herbicide which may be used through the Greenaway range of CDA equipment for the control of emerged perennial and annual grasses and broad leaved weeds. (See pesticide label for further details.)

#### **Areas of Use**

Eco-Flex when combined with non-hazardous Greenaway Gly-490 Glyphosate as per manufacturer's instructions may be applied directly to water for the control of water born surface weeds

#### **When to Apply**

Eco-Flex, when combined with non-hazardous Greenaway Gly-490 Glyphosate should be applied when the weeds are fully emerged through the water surface and are actively growing. Application should cover the maximum surface area of the plant leaf.

#### **Rates of Use**

In all situations apply, when mixed at 10lts/ha through the Greenaway range of CDA applicators.

#### **Legislation**

Eco-Flex conforms to current legislation concerning Herbicide and Pesticides, and is approved for use as directed with approved non-hazardous Greenaway Gly-490 Glyphosate.

MAFF ADJ. No. 0696
