PRODUCT INFORMATION SHEET

THE HANDY

The Greenaway 'Handy' system hand lance is a light, simple to use, gravity fed, self contained, controlled droplet lance designed to deliver the Greenaway range of approved adjuvant carrier markers combined with a suitable active material.

- Light to use with simple controls. No calibrating to work out.
- Ideal for small jobs, spot treating in shrub beds, tidy up around buildings, around obstacles, Ragwort.
- Self contained with 1 litre screw on bottle of product that will cover 600sq metres.
- Glyphosate based product to give total control of most weeds.
- Replaces strimming around trees on golf courses – around 600 trees per 1 litre pack
- Good for supervisory staff to tidy up any missed areas without the need to call back the main spray team
- Light but strong construction weighing just 950 grams with aluminium shaft.

For a free demonstration contact your local Greenaway outlet or ring the above number
