PRODUCT INFORMATION SHEET

THE XTENDY LITE

The Greenaway 'XTENDY' system is a hand held pre-calibrated, pumped, controlled droplet lance designed to deliver the Greenaway range of approved adjuvant carrier markers combined with a suitable active material into areas out of reach for conventional equipment.

- Extendible up to 3.1 metres in length
- All products applied at 10litre per hectare
- Pumped system gives constant application rate no matter whether applying to banked area or watercourse

- 5 litre back pack gives 5000sq metres of use with visi-strip to record usage
- A sealed system allowing no leakage or contamination
- Allows operator safe access to difficult areas such as waterways and banked sites
- Simple to use, no calibrations to work out

For a free demonstration contact your local Greenaway outlet or ring the above number
